

Barrett Preserve

A yellow loop trail begins in an open field and quickly passes into a mature upland forest with laurel stands, tulip trees, rock ledges, and streams. After a 1989 forest fire led to a dense re-growth of black birch trees, a forest management plan was put into place to carefully restore the preserve to a healthy, diverse forest. **Leashed Dogs Allowed**

-  Yellow - East (0.70 mi)
-  Yellow - West (0.52 mi)
-  Yellow Dot (.11 mi)
-  Contours 10 feet

-  Conservation Properties
